

Fall Foliage Shade Trees

Celebration® Maple

Acer x freemanii 'Celzam'

1.5" \$299 2" \$399 3" \$599

A hybrid of the Silver and Red Maples, the Celebration Maple is a deciduous accent tree that gets energetic growth from the Silver Maple side of its family. The excellent grower elevates at a stellar rate of 3 to 7 feet per year. Bright yellow-orange and red-orange hues in Fall.

Height: 40 -50 ft. Width: 25 ft. Growth Rate: 3+ ft./yr.

Autumn Blaze® Maple

Acer x freemanii 'Jeffsred'

1.5" \$299 2" \$399 3" \$599

A hybrid from *Acer rubrum* and *Acer saccharinum* parentage. Improved hybrid with brilliant, long lasting, orange-red fall color, an upright, uniform branching habit and a rapid growth rate. Will tolerate wet soils with good drainage. An excellent lawn, park or street tree.

Height: 50 - 60 ft. Width: 40 ft. Growth Rate: 2 ft./yr.

Bowhall Red Maple

Acer rubrum 'Bowhall'

1.5" \$299 2" \$399

An excellent street and parking lot tree species as it does not become too wide. It has better fall color than the red maple cultivar 'Armstrong'. During the summer months the leaves are dark green above and grayish beneath. In the fall, the leaves turn shades of yellow, orange and reddish orange, before being shed for the winter.

Height: 40 ft. Width: 15 ft. Growth Rate: 2 ft./yr.

Brandywine Red Maple

Acer rubrum 'Brandywine'

1.5" \$299 2" \$399 3" \$599

A male selection (seedless) that typically grows to 25' tall over the first 12 years. Fall color is a brilliant scarlet that gradually turns reddish-purple. Fall color is more intense with more consistent quality red foliage color from year to year than what is typically found on species plants.

Height: 40 - 50 ft. Width: 25 - 35 ft. Growth Rate: 3 ft./yr.

Red Sunset® Red Maple

Acer rubrum 'Franksred'

1.5" \$299 2" \$399 3" \$599

Pyramidal form when young that becomes rounded with age. Considered one of the best for early fall color. The glossy green leaves provide a very dynamic show, as they turn a brilliant orange-scarlet when temperatures begin to cool.

Height: 40 - 50 ft. Width: 30 - 35 ft. Growth Rate: 1 - 2 ft./yr.

October Glory® Red Maple

Acer rubrum 'PNI 0268'

1.5" \$299 2" \$399 3" \$599

Outstanding, reliable, bright orange to deep, reddish purple fall color - even in warmer climates. A tall form with a dense, rounded crown and large, medium green leaves in spring and summer. Foliage is held on the tree later into fall than with most cultivars.

Height: 40 - 50 ft. Width: 30 - 40 ft. Growth Rate: 1 - 2 ft./yr.

Legacy Sugar Maple
Acer saccharum 'Legacy'

1.5" \$299 2" \$399 3" \$599

A fast growing, densely branched, symmetrical shade tree. The thick, waxy, dark-green leaves have a definite sheen and are resistant to leaf tatter and scorching during summer months. In the fall, the entire tree transforms to bright red with touches of pink, orange and golden yellow.

Height: 50 - 60 ft. Width: 35 - 45 ft. Growth Rate: 1 - 2 ft./yr.

Princeton Elm
Ulmus americana 'Princeton'

1.5" \$299 2" \$399 3" \$599

Most known for its dense symmetrical upright form and dark green foliage. It has been proven to be one of the best American Elms for resisting the attack of Dutch Elm Disease and has been gaining in popularity in recent years. The Princeton Elm has a unique upright vase shape and great yellow to gold fall color. Vigorous and adaptable, and they can grow in almost any conditions.

Height: 40 - 50 ft. Width: 35 - 40 ft. Growth Rate: 2+ ft./yr.

'Green Vase'® Zelkova Tree
Zelkova serrata 'Green Vase'

1.5" \$299 2" \$399 3" \$599

Distinctive broad, vase shape of the typical species but grows almost twice as fast. Has all of the other desirable characteristics of the species, including a wonderful scaffold of branches for a great winter silhouette, medium-sized, dark green leaves that turn soft yellow, orange and russet in autumn. This is a fine tree for the urban landscape as it has a high tolerance for wind, pollution, drought and compacted soils.

Height: 40 - 50 ft. Width: 30 - 40 ft. Growth Rate: 1 - 2 ft./yr.

Spring Flowering Trees

Autumn Brilliance Serviceberry

1.5" Single Cane or 7' Clump \$299

Amelanchier x grandiflora 'Autumn Brilliance'

2" Single Cane \$399

A natural hybrid of several Serviceberry varieties, Autumn Brilliance Serviceberry offers a lovely landscape display all year-long. The flowers give way to small green berries that gradually deepen into red. They finally mature a deep, rich purple in early summer. Excellent orange-red fall color.

Height: 20 - 25 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Eastern Redbud

**** Limited Availability ****

Cercis canadensis

1.5" \$299 2" \$399 3" \$599

Eastern redbud is a flowering tree that blooms before the leaves appear. In early spring, clusters of rose pink to light purple flowers mature and attract many pollinators including butterflies, and bees. The plant holds great wildlife value as a larval host plant and the bean pod fruits provide food for songbirds.

Height: 20 - 30 ft. Width: 25 - 35 ft. Growth Rate: 1 - 2 ft./yr.

Forest Pansy Redbud

**** Limited Availability ****

Cercis canadensis 'Forest Pansy'

1.5" \$299 2" \$399

Forest Pansy is a purple-leaved cultivar that has attractive red-orange fall color. The cultivar name arises from its attractive pansy-like flowers. Grows best in average soil in full sun or part shade though it can withstand heavy clay soils. This small tree is resistant to browsing by deer and can be planted near black walnut trees.

Height: 20 - 30 ft. Width: 25 - 35 ft. Growth Rate: 1 - 2 ft./yr.

American Yellowwood

Cladrastis kentukea

2" \$399

A slow growing, medium-sized tree with a broad rounded crown. It makes a fantastic compact shade tree, with smooth gray (almost beech-like) bark and bright green leaves that turn yellow-orange-gold in fall. Yellowwood is also prized for its early summer display of white, wisteria-like flower panicles that are borne heavily in alternating years or every third year. The tree gets its name from the bright yellow color of freshly cut heartwood.

Height: 30 - 50 ft. Width: 30 - 50 ft. Growth Rate: 1 ft./yr.

Cherokee Chief Flowering Dogwood

Cornus florida 'Cherokee Chief'

**** Limited Availability ****

1.5" \$299 2" \$399 3" \$599

A classic beauty, offering deep, ruby-red flower bracts and four seasons of interest. New leaves emerge bronze-red in spring, maturing to green. Autumn brings fantastic burgundy-red foliage. The show continues into winter, with red fruit clinging to bare branches. This small, low-branched tree has an attractive branching habit, giving a graceful, layered effect.

Height: 15 - 20 ft. Width: 20 - 25 ft. Growth Rate: 1 - 2 ft./yr.

Cherokee Princess Flowering Dogwood

Cornus florida 'Cherokee Princess'

**** Limited Availability ****

1.5" \$299 2" \$399 3" \$599

Fast growing native dogwood tree. A prolific bloomer, this tree produces large, snow white flowers in early spring before leaves appear. Red, late summer fruit attracts birds. Deep green leaves turn purple-red in fall. Prefers morning sun, with afternoon shade.

Height: 20 -25 ft. Width 20 - 25 ft. Growth Rate: 1 - 2 ft./yr.

Kousa Dogwood

Cornus kousa

**** Limited Availability ****

1.5" \$299 2" \$399

The Kousa dogwood is a handsome, small- to medium-sized tree reaching a mature height of 30 feet. Sometimes referred to as the Chinese dogwood, this tree is a cousin to our native flowering dogwood. Young trees grow in an upright fashion and in somewhat of a conical shape. They are vase-shaped in their youth. As a Kousa matures, it develops more horizontal branching, rounded form, and becomes more wide-spreading.

Height: 20 - 30 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Stellar Pink® Dogwood

Cornus x 'Rutgan'

**** Limited Availability ****

3" \$499

Profuse, large, overlapping, blush pink, flower-like bracts cover this small but vigorous tree in early spring. The fully branched habit provides layers of lush green foliage from bottom to top. A magnificent landscape specimen for small gardens or woodland settings. A sterile cultivar that produces no fruit. Deciduous.

Height: 20 - 25 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Callaway Crabapple

Malus x 'Callaway'

1.5" \$249 2" \$299

Noted for its rounded shape, white flowers, large red fruit and excellent disease resistance. Bright oval green leaves (to 3" long). Pink buds open in spring to white flowers (1.5" diameter). Flowers are followed by large, bright red crabapples (to 1.5" diameter) that mature in fall and may persist into winter. Birds are attracted to the fruit. Fruit is sometimes harvested for jellies. This cultivar is considered to be a good selection for gardens in the southeast.

Height: 15 - 25 ft. Width: 12 - 20 ft. Growth Rate: 1 ft./yr.

Prairifire Crabapple

Malus x 'Prairifire'

1.5" \$249 2" \$299

An outstanding flowering tree with an upright form that becomes rounded with age. Reddish new foliage matures to a dark green. Lovely deep pink spring flowers produce persistent, small, dark red-purple fruit. This easy-to-grow accent tree can be used as a single specimen in the front yard for curb appeal, or in the back where you may enjoy its seasonal changes. An excellent habitat and food source for wildlife.

Height: 15 - 20 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Profusion Crabapple

Malus x moerlandsii 'Profusion'

1.5" \$249 2" \$299

A spreading, violet-red-flowered crabapple. It is noted for its rounded shape, violet-red flowers, red fruit and good disease resistance. Oval leaves (to 3" long) emerge reddish-purple when young, turn bronze green during the growing season and finally turn an amber fall color.

Red buds open to violet-red flowers (1.5" diameter). Flowers are followed by bright red crabapples (to 1/2" diameter) that mature in fall and may persist into winter. Birds are attracted to the fruit. Fruit may be harvested for jellies.

Height: 15 - 25 ft. Width: 20 -25 ft. Growth Rate: 1 - 2 ft./yr.

Robinson Crabapple

Malus x 'Robinson'

1.5" \$249 2" \$299

A pink-flowered crabapple noted for its rounded shape, deep pink flowers, red fruit and good disease resistance. Oval leaves (to 3" long) emerge purple when young, turn bronze green with red veining during the growing season and finally turn varying orange fall color. Crimson buds open in spring to deep pink flowers (1.5" diameter). Flowers are followed by bright red crabapples (to 3/8" diameter) that mature in fall and may persist into winter. Birds are attracted to the fruit. Fruit may be harvested for jellies.

Height: 15 - 25 ft. Width: 15 - 25 ft. Growth Rate: 1 - 2 ft./yr.

Sugar Tyme® Crabapple

Malus x 'Sutyzam'

1.5" \$249 2" \$299

A disease resistant crabapple with crisp green foliage. Lovely pale pink buds open to showy white flowers that completely blanket its upright habit. The flowers are some of the most fragrant among all crabapples. Red fruit persists through winter. The foliage color is a golden red in the fall.

Height: 15 - 20 ft. Width: 10 - 15 ft. Growth Rate: 1 ft./yr.

Kwanzan Flowering Cherry

Prunus serrulata 'Kwanzan'

1.5" \$249 2" \$299 3" \$499

A lovely specimen tree that puts on an incredible early season show with clusters of large, double deep pink blooms backed by bronze-red new growth. An upright, vase-shaped branching habit perfect for lining a road or driveway. A stunning lawn specimen. Deciduous.

Height: 20 - 25 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Yoshino Flowering Cherry

Prunus x yedoensis

1.5" \$249 2" \$299 3" \$499

A small, deciduous tree with serrated leaves; they are often bronzed-toned when newly emerged, becoming dark green by summer. The flowers emerge before the leaves in early spring; they are fragrant, 1 - 1.5" in diameter, with five white or pale pink petals. The flowers grow in clusters of five or six together. Introduced to Europe and North America in 1902. The National Cherry Blossom Festival is a spring celebration in Washington, D.C., commemorating the 1912 gift of Japanese cherry trees from Tokyo to the city of Washington.

Height: 30 - 40 ft. Width: 25 - 35 ft. Growth Rate: 1 - 2 ft./yr.

Large Shade Trees

American Beech

Fagus grandifolia

1.5" \$299 2" \$399

Native to eastern North America it is a sturdy, imposing, large deciduous tree with a dense, upright-oval to a rounded-spreading crown and smooth bark that remains smooth as the tree ages. It is a low-branched tree with its mature trunk ranging from 2 to 3 feet in diameter. Prefers moist, well-drained, acid soil. Fall color is golden bronze and leaves often last into winter.

Height: 60 - 80 ft. Width: 40 - 80 ft. Growth Rate: 1 - 2 ft./yr.

Ginkgo (Maidenhair Tree)

Ginkgo biloba

1.5" \$299 2" \$499 3" \$599

A large, deciduous tree that matures to 100' tall and is considered to be a living fossil. It features distinctive two-lobed, somewhat leathery, fan-shaped, rich green leaves with diverging (almost parallel) veins. Leaves turn bright yellow in fall.

Height: 50 - 80 ft. Width: 30 - 40 ft. Growth Rate: 1 - 2 ft./yr.

Shademaster Honeylocust Tree

Gleditsia triacanthos var. inermis 'Shademaster'

1.5" \$299 2" \$399

This tree species will grow into a beautiful rounded shape. Once the fall season arrives, leaves turn a golden-yellow color. With widely spaced branches and small leaves, this tree adds some attractive shade to your landscape. However, the darkness is not too deep that grass or other plantings cannot grow under the tree. This tree does not produce any fruit or flowers.

Height: 50 - 70 ft. Width: 50 - 70 ft. Growth Rate: 2+ ft./yr.

Skyline® Honeylocust

Gleditsia triacanthos f. inermis 'Skycole'

1.5" \$299 2" \$399

A tough, medium-sized flowering tree that casts a light shade that won't kill lawn grasses. Inconspicuous, greenish yellow to greenish white flowers appear in racemes in late spring. A thornless variety with a stronger upright growth form, few seed pods, and excellent yellow fall color. This is an adaptable tree especially good for streets and parking lots. Leaf out later than most other shade trees. This tree is also very water thrifty and heat tolerant.

Height: 40 - 50 ft. Width: 25 - 35 ft. Growth Rate: 2+ ft./yr.

Happidaze® Sweetgum

Liquidambar styraciflua 'Happdell'

1.5" \$299 2" \$399

A nearly fruitless variety. The outstanding form is initially a narrow pyramid, with the well spaced branches projecting more in maturity for an overall dense oval habit with a straight central leader. Glossy green leaves have five lobes, turning maroon and persisting well into fall. An overall course texture, even the young branches are covered bark with corky fissures.

Height: 40 - 60 ft. Width: 25 - 30 ft. Growth Rate: 1 -2 ft./yr.

Tulip Poplar

Liriodendron tulipifera

1.5" \$299 2" \$499 3" \$599

A deciduous tree that may grow 90 to 120 feet tall and takes its name from its greenish-yellow heartwood and attractive tulip-like flowers. The bark is smooth and dark green on young trees. As the tree ages, wide, white furrows that separate flat ridges develop. In late spring, 2.5-inch flowers with yellow-green petals and an orange corolla mature. It can have superb fall color of yellow to golden yellow but leaves fall prematurely. State Tree of Tennessee.

Height: 70 - 120 ft. Width: 30 - 60 ft. Growth Rate: 2+ ft./yr.

Arnold Tulip Tree

Liriodendron tulipifera 'Arnold'

2" \$499

3" \$599

This upright grower is well suited for narrow spaces, though its stately size is best suited for larger properties. Unusual yellow-green, tulip-like flowers appear in late spring through summer. Foliage has pretty golden yellow color in fall.

Height: 40 - 50 ft. Width: 10 - 15 ft. Growth Rate: 2+ ft./yr.

D.D. Blanchard Magnolia

Magnolia grandiflora 'D.D. Blanchard'

6' \$299

8' \$499

10' \$799

A magnificent evergreen tree with large, glossy dark green leaves with attractive, rusty-brown undersides. Open-branched pyramidal form makes an excellent shade tree. Huge cup-shaped flowers.

Height: 50 ft. Width: 25 - 35 ft. Growth Rate: 1 - 2 ft./yr.

Dawn Redwood

Metasequoia glyptostroboides

1.5" \$299

2" \$399

3" \$499

This is a large, fast-growing, deciduous, pyramidal tree with attractive, feathery foliage. Foliage is russet-brown in autumn. It has spreading branches that droop with age. was discovered during a plant expedition into remote China in the 1940s. It was first known from a fossil record, not living extant plants.

Height: 50 -100 ft. Width: 25 ft. Growth Rate: 2+ ft./yr.

EXCLAMATION!™ London planetree

Platanus acerifolia 'Morton Circle'

2" \$299

3" \$599

A hybrid between the American Sycamore and Oriental Sycamore. It has superior resistance to Anthracnose and Frost Cracking compared to the pure American Sycamore. Its exfoliating bark begins with shades of green to tan to brown, which peel away to reveal a cream-white colored bark with age.

Height: 55 - 65 ft. Width: 40 - 50 ft. Growth Rate: 3 ft./yr.

Pin Oak

Quercus palustris

1.5" \$299

2" \$399

3" \$599

One of the faster-growing red oaks. It has a more slender graceful appearance than some oaks. Adaptable to drier and urban conditions. The crown is pyramidal to oval. Won't begin producing acorns until around 20 years old. The branching pattern is unique with the lowermost branches being angled sharply downward, the middle branches horizontal, and the upper branches ascending. Young trees and lower branches of older trees hold leaves throughout winter.

Height: 70 - 90 ft. Width: 40 - 50 ft. Growth Rate: 2+ ft./yr.

Sawtooth Oak

Quercus acutissima

1.5" \$299

2" \$399

3" \$599

Sawtooth Oak is a medium-sized tree. It grows up to 75 feet tall and is broad pyramidal becoming oval. It can produce acorns as young as 10 years of age and acorns are produced profusely on mature trees. Fall foliage is yellow/brownish in the south and tardily deciduous. It is fast growing as a young tree and heat tolerant.

Height: 50 - 75 ft. Width: 40 - 60 ft. Growth Rate: 2 - 4 ft./yr.

Shumard Oak

Quercus shumardii

1.5" \$299 2" \$399 3" \$599

An attractive tree with a pyramidal shape when young and a more open rounded crown at maturity. It is tolerant of urban conditions like drought, dry soil, and air pollution. Relatively fast-growing, adaptable and drought tolerant but also tolerates short-term flooding and wind. The lobed leaves often have nice red fall color.

Height: 50 - 70 ft. Width: 30 - 40 ft. Growth Rate: 1 - 2 ft./yr.

Willow Oak

Quercus phellos

1.5" \$299 2" \$399 3" \$599

Fast-growing for an oak and starts producing acorns at age 15-20 years. This tree is a high-value wildlife tree for birds and mammals. It is adaptable to a variety of soil types. It is utilized as a shade tree in commercial establishments, parks, golf courses, large yards and as a street tree.

Height: 50 - 80 ft. Width: 30 - 40 ft. Growth Rate: 1 - 2 ft./yr.

Shawnee Brave® Bald Cypress

Taxodium distichum 'Mickelson'

1.5" \$199 2" \$299

It has a narrower shape and denser foliage than Bald Cypress. Flat, linear needles are yellow-green in spring, medium to dark green in summer and reddish-brown in fall. Needles drop shortly thereafter. Reddish-brown bark exfoliates in strips. Root system "knees" only appear on plants growing in water.

Height: 50 - 75 ft. Width: 15 - 20 ft. Growth Rate: 1 - 2 ft./yr.

Norway Spruce

Picea abies

6' \$299

8' \$399

A large pyramidal evergreen conifer that is native to the mountains of northern and central Europe. In North America it typically matures to a much shorter 40-60' tall. It is noted for its rapid growth. Primary branches are slightly upturned but secondary branches become pendulous as the tree matures.

Height: 40 - 60 ft. Width: 20 - 30 ft. Growth Rate: 1 - 2 ft./yr.

Eastern White Pine

Pinus strobus

8' \$299

10' \$399

An evergreen conifer tree tolerant of a wide range of soil conditions. An attractive, ornamental, landscape tree, singly and in hedges, borders, or woodland areas. Alternatively, plant it in a native, butterfly, pollinator, or nighttime garden, as it will attract butterflies and other pollinators, songbirds, and small mammals.

Height: 50 - 80 ft. Width: 20 - 40 ft. Growth Rate: 2+ ft./yr.

Screening Plants

Nellie R. Stevens Holly

Ilex x 'Nellie R. Stevens'

6' \$299

7' \$399

Vigorous growing with a broad pyramidal tree-like form, dense branching, and lustrous, dark green, leathery foliage. An excellent hedge, screen, or specimen. Produces large, bright orange-red berries without a male pollenizer. Use this plant as a specimen or take advantage of its dense, prickly foliage for use as a barrier, hedge, or screen planting. It is excellent in a woodland garden or as part of a foundation planting.

Height: 15 - 25 ft. Width: 10 - 15 ft. Growth Rate: 1 - 2 ft./yr.

Emerald Green Arborvitae

Thuja occidentalis 'Smaragd'

7' \$299

8' \$399

A narrow, pyramidal evergreen with dense, emerald green foliage that holds its color throughout winter. Thrives in the heat and humidity of the south, and tolerates dry spells when established. One of the most popular and effective shrubs for screening or tall hedge use. An ideal specimen for topiary.

Height: 10 - 15 ft. Width: 3 - 4 ft. Growth Rate: 6 - 9 in./yr.

Green Giant Arborvitae

Thuja standishii x plicata 'Green Giant'

8' \$399

10' \$499

Has a low-branched, dense columnar-pyramidal habit. Dark green sprays of small, glossy, scale-like needles retain their deep green color through the winter. It is a low-maintenance landscaping choice due to its hardiness and uniform growth habit that requires little to no pruning to maintain an attractive shape. It tolerates a wide range of soils. It resists most diseases, insects, periodic droughts, and deer. This tree can grow 3 to 4 feet per year in optimal conditions.

Height: 40 - 60 ft. Width: 10 - 15 ft. Growth Rate: 2 - 4 ft./yr.

Eastern Hemlock

Tsuga canadensis

6' \$299

8' \$399

A beautiful conical evergreen with drooping branches and tiny cones, the eastern hemlock makes a lovely specimen tree in a home landscape. Individual trees can reach heights of 40 to 70 feet and widths of 25 to 35 feet. Trees can endure pruning as a hedge but look best unpruned. Eastern hemlock needs moist but well-drained, somewhat acidic soils in sun to part shade.

Height: 40 - 70 ft. Width: 25 - 35 ft. Growth Rate: 1 - 2 ft./yr.

Other

Dura Heat® River Birch
Betula nigra 'BNMTF'

Clump Form	Clump Form
8'-10' \$199	12'-14' \$299

A more heat and drought tolerant form of this species, with superior insect and disease resistance. The pyramidal form features dense, glossy green leaves that fade to clear butter yellow in fall, and striking winter bark that is a pinkish orange with prominent exfoliation.

Height: 30 - 40 ft. Width: 25 - 25 ft. Growth Rate: 3 ft./yr.

American hornbeam
Carpinus caroliniana

1.5" \$299	2" \$399
------------	----------

The American hornbeam is a native forest understory tree, making it useful for shady landscapes and naturalized or woodland gardens. New leaves emerge reddish-purple, changing to dark green, then turn yellow to orange-red in the fall, offering a kaleidoscope of color throughout the year. Even in winter the fluted blue-gray bark with long, sinewy ridges make it a special addition to the landscape. This is a wildlife friendly tree perfect for a pollinator, or native garden acting as a larval host plant, food source for mammals and birds.

Height: 20 -30 ft. Width: 20 - 30 ft. Growth Rate: 1 ft./yr.

Weeping Willow
Salix babylonica

1.5" \$199	2" \$299	3" \$599
------------	----------	----------

Its graceful habit is effective as a specimen at the edges of ponds and lakes or any low spot in the landscape that retains water. With pendulous, weeping branches, a stout trunk, and a broad rounded crown it makes a statement in any landscape.

Height: 30 - 40 ft. Width: 30 - 40 ft. Growth Rate: 2+ ft./yr.
